look after you!

> What do **YOU** want from your job and how can we help you get it?

After all, that's what unions are all about isn't it?

Well your union, the CWU, is asking our young members just that. But we won't know unless you tell us.

What are **YOUR** issues?

It's not just about money. Is it pensions, training and career development, maternity, paternity rights or better rights for agency workers?

And you can't divorce work from life can you – so what about racism, the environment, housing? Should your union have a role to play in these issues too?

We won't know unless **YOU** tell us...

If you're a CWU member under 30-years-old, please click on:
